Notification of Approval of Quality Step Increase - Corles & Flick

- 1. I am pleased to send to you the attached official notification of the approval of the Quality Step Increase which you recommended for this employee.
- 2. The salary increase accomplished by the award of a Quality Step Increase is important and tangible evidence of the esteem in which the employee so recognized is held. However, I believe the commendatory and incentive benefits this every will be partially loss unless it in excepted. of this award will be partially lost unless it is presented in an appropriate ceremony which will afford the individual recognition among co-workers and supervisory officials. Also, I believe such recognition serves to inspire other employees to aspire to earning such recognition.
- 3. Acknowledging that cover problems may severely limit the manner in which this notice is presented to the employee concerned, may I ask that you arrange to have it presented with such ceremony as is appropriate to his status and assignment.

Recommendation for Promotion to Grade GS-13

Chales Flick

1. WH Division fully endorses the strong recommendation made by Chief of Station, Mexico, for the promotion of Arnold F. from GS-12 to GS-13.

2. The project supported by during the last five years is considered a model in the Agency and a good deal of the credit for such excellence is due to this officer, whose management of the project for a prolonged period of time has been well in excess of that required of a GS-13.

3. Subject is 46 years old and has been in grade as a Gs-12 for the past seven years.

Memorandum for: Secy, Agent Panel, dated 30 Aug. '63, Subject: Hominations of Staff Agents for Promotion to Grade G8-13

- 1. On 30 August 1963 a memorandum recommending the promotion of the little of the Staff Agent Panel supporting the WH Invision semi-annual ranking of GS-12 Staff Agents. In view of recently received information, I feel even stronger now that this employee is deserving of recognition by promotion at this time.
- 2. A representative of the FI Staff has just returned from a visit to the Mexico City Station and reports that it is performing exceedingly well on the duties and responsibilities assigned to him. I as very gratified to hear this news and believe that it should be considered significantly by the Staff Agent Panel.

The ratings given in this report are not meant to indicate a change

in Subject's overall fitness and effectiveness in this operation, but rather, a reflection of the reporting efficer's interpretation of the letter grades themselves. Subject continues to do an impressive job in a task that to amost would be far from personally rewarding and often very frustrating.

The equipment which he maintains is for the most part at least ten years old and requires constant maintenance and the use of improvised parts. Subject has used his ingenuity and sense of responsibility to improvise and keep the operation going. There has yet to be, to our knowledge, a moment when operations have been suspended due to his inability to keep the equipment going. This in itself is an act worthy of recognition.

Subject has nover missed a meeting nor has he ever complained about special meetings or special assignments due to operational necessity. He is often the first to call the attention of the Station to matters

of operational interest which occur outside the normal working day. Subject has always been aware of the Stations equities in this operation which transcend the operational and technical aspects. He has always demonstrated this awareness in his doulings with his local counterparts. They have personal respect for Subject and count him as one of themselves in all respects.

(continued)

He has frequently been made privy to matters which would not normally be revealed to the Station or come to the Station's attention in the routine way. This is due to his closeness to the indigenous personnel connected with the operation and their acceptance of his "in" with the powers that be.

Overall, Subject contributes in a very strong way to the operation. Without him the operation and the resulting relationships may well have been lost some years ago. It is hoped that his personal desires will lead him to remain with the project for some years to como.

Reviewing Comments:

'I agree to all of the above. These who are unaware of it should know that subject spent many years, until last January, having to work with an unpleasant, venal, untruthful, and lazy supervisor of the operation. (The new president fired him.) Subject went through those yours of unpleasantness without ever losing sight of the agency's needs. Now, circumstances are more pleasant but subject is as keen as ever to be sure that the work is done in a way responsive to our requirements. He has done fine work over the years and he maintains the same high standards for his own performance and this influence carries over to his Mexican opposite number. I am convinced as ever that he deserves a promotion as he has in the past. He has been six-and-a-half years in grade since 23 May 1965, to be exact. We are putting such a recommendation forward. (Picase note that he is being given an overall S. In past years he was given "O's". The change is not in his performance, which is as fine as ever. We simply are not throwing O's around.)

Subject has a promptness and security consciousness about the entire operation and making clandestine meetings with his inside case officer that manifests a high degree of professionalism in his character. His dedication to getting the job done rapidly, efficiently and securely is yet another example of his professionalism. He works long and often extra hours without hesitation and is always available when called upon to perform special tasks.

Subject handles the black bagging of funds and the administrative functions of this operation in an excellent manner. His accountings are well prepared, detailed and always submitted on time. The accountings always reflect Subject's cost consciousness.

In summation, Subject executes all six of the specific duties listed under Section B of this report in a very strong professional manner. Subject is a definite asset to the success that this operation has enjoyed over the years and his absence from the scene for any prolonged time would have adversely affected the operation.

NARRALIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to averall performance. State suggestions made for improvemental work performance. Give recommendations for training. Comment on foreign language competence, if required for civiters as stions. Amplify, or explain ratings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory duties and cost consciousness in the use of personnel, upage, adupment and funds, must be commented on, if applicable. If extra space is needed to complete Section C, attach a separate sheet of paper.

It would be natural to people that the rating officer after an additional year of working on a daily basis with Subject, would cease to be so completely impressed with the performance of this individual; in the normal course of wevents we all tend to slip here and there and on occasion do less than our best. However, reflecting back over these past thirteen months I can honestly state that Subject has continued to do an exceptional job of near perfection. He has not missed or been late for a meeting; he in each instance brought to us the materials we have needed; the basehouse has continued to run like clockwork; he has, in sum, met each and every requirement expected of him.

In his day-to-day performance Subject continues to save us a great deal of money not only by being economical in the way he purchases and uses supplies but additionally by keeping equipment in operation which is not used any longer in any JKLANCE operations. (Visiting technicians are always amazed to find the equipment both in use and functioning substantially as it was on the day it was installed).

In a less tangible way we are in debt to Subject for the invaluable contribution which we believe he made in maintaining our equities

At first glance I find the ratings in Section B high and wonder how he would compare with other technicians doing the same work even though he is performing in a very professional manner. From the technical standpoint he has kept the operation alive through perseverance, hard work and a high degree of technical proficiency. His ability to get along with his Mexican contacts and the degree of respect they have for him is very commendable. Not having the opportunity to compare him with other technicians, doing the same job under identical circumstances, it is difficult to find a fair rating.									
24 February 1971	Deputy Chief of Station	/s/ George A. Fill							

in this basic and important activity through the recent change of government. There is little doubt in our minds that the new principals of the GOM appreciated in a very genuine way the professional standards which Subject alone was responsible for in this operation (their own representatives had been less than effective) and opted without hesitation to continue with us in the operation and to retain Subject in his position as the individual technically responsible.

Therefore, we look forward to having the services of Subject indefinitely and so long as it is in his own interest to remain here; we know it has been, is now and will continue to be in the best interest of JKLANCE.

#### COMMENTS OF REVIEWING OFFICIAL

The Station needs him, cannot do without him and cannot find any fault in his performance. Perhaps from his limited technical standpoint he is outstanding.

Subject Staff Agent continues to be the outside Case Officer for the LIENVOY Project, a position he has held for the last 9 1/2 years. This assignment requires that Subject work full-time in relatively close quarters with Mexican assets. He has adapted well to such a working arrangement and has developed a smooth and efficient working relationship with the assets involved in the day-to-day LIENVOY activities.

He and his family also have adapted well to living conditions demanded by his non-official cover and have caused no security or administrative problems for the Station during the tenure of the present supervisor.

As the primary technician for repair and maintenance of the LIENVOY equipment, this officer has been outstanding. The equipment has operated more than 50,000 hours since its installation and remains in good working condition. His ability to instruct the Mexican personnel in equipment use and operation is attested by the hours-run and present condition.

This officer's tasks require that he be on the job by 0700 hours each morning in order to arrange, log and deliver the product to a -continued-

Subject also is responsible for paying the salaries of the assets and accounting for operational expenses and local procurement. As mentioned in previous Fitness Reports, he is very enst-conscious and diligent in carrying out his administrative responsibilities.

This Fitness Report should be considered in conjunction with the last Annual Report which was forwarded in January 1969 and which is still valid as far as ratings and narrative comment are concerned.

For the past seven years, this officer has been and loutside Das Forficer for the LIENVOY listening post. He was promoted to 98-13 on 23 May 1965 and he continues to perform his duties with exceptional proficiency particularly in the care and maintenance of the technical equipment. This equipment has run for over 35,000 hours without a major breakdown.

In addition to maintenance of the equipment, this officer dispenses funds for payment of agent salaries and operating expenses.

This officer works contimiously with indigenous personnel and has maintained

a many firming of the first of the

a smooth working relationship. He has adapted well to living outside and to the life of a Staff Agent.

During 1966 this project produced 8,644 reels of raw take and 18,766 pages of transcripts which accounted for a considerable volume of positive intelligence. This project has been cited by Eeadquarters as outstanding for its production of positive intelligence and for the procedure used in processing the raw take. This officer's performance has made a major contribution to the effectiveness of this project.

This officer has performed excellently in the running of the LIENVOY plant and in this regard I concur with the above. It is my impression, however, that Archart could improve effectiveness of the unit by better acquainting himself with station objectives and relating this to day to day ops. I have discussed this with him and-COS.

his requests. His ability to supervise the proper handling of the equipment is again verified by the number of hours each piece of machinery has operated. Subject officer has a working knowledge of the Spanish language which enables him to conduct pertinent conversations with the local agents.

The officer is responsible for paying the salaries of the agents, local procurement and other operational expenses. He has proven to be notably cost-conscious in carrying out this responsibility. His monthly accountings are accurate and submitted in regulation form.

Subject officer's overall performance makes a major contribution to the effectiveness of this complex and valuable technical project.

This Staif Agent was promoted to his present grade on 23 May 1965.

#### NARRATIVE COMMENTS

Indicate significant strengths or weaknesses demonstrated in current position keeping in proper perspective their relationship to averall performance. State suggestions made for improvement of work performance. Give recommendations for trulating. Comment on foreign language competence, if required for current position. Amplify ar explain takings given in Section B to provide best basis for determining future personnel action. Manner of performance of managerial or supervisory durings and cost consciousness in the use of personnel, space, equipment and funds, must be commented on, if applicable. If estra space is needed to complete Section C, attach a separate sheet of paper.

This Staff Agent is the outside case office; for the LIENVOY Project and has had this position for the past nine years. As such, he has shown the ability to fit into the unofficial life required and to work full-time in relatively close quarters with indigenous personnel.

Subject officer has shown an outstanding ability to diagnose equipment problems and to resolve same in an expeditious and thorough manner. This is evident by the fact that the equipment has operated almost 50,000 hours without a major breakdown which would cause a closure in the coverage.

As the outside case officer, he protects WOFIRM's interest in the basehouse and also logs and delivers the product to the in-Station case officer on a daily basis. Because of the perishable nature of the product, he must report for duty before 0700 hours each work morning in order to log and deliver the production to the Station contact.

This officer works continuously with indigenous personnel and supervises their use of the equipment. He has developed a smooth working relationship with these agents and they are responsive to (continued)

Stress strengths and weaknesses demonstrated in current position. Indicate significant mude to employee for improvement of his mosts. Give recommendations for his training. Describe, if appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D to provide the best basis for determining fature personnel actions.

This officer has excepted himself to the role of staff egent in a spet commidship manage.

His primary duties are the protection of KIEAEK interests in the maintenance of technical equipment in a bace thich monitors over thirty telephone lines on a transprious hour schedule and the supervision of ten Mariosa annitors the also work in this installation. This officer has performed these duties in a quiet, efficient and creditable samer, thus reducing the escent of time formerly epent by Station Case Officers in going to the base and trying to supervise the work there. At present no parsons in the Station violt the been during work-hours and only the 603 is known to the two making Mexican agents.

Policy decisions are of course sole by the 608 and LIEUECAIT but this officer is the responsible Case Officer for the LEETVOY project. The remarkable sensor in which he has performed his duties during the pest year is reflected in the smoothness with which the project now reas.

Based on the sarked improvement cines the last efficiency report, the COS recommends that this Officer be returned to Maries after home leave in mid-1962. It is also recommended that this officer be considered for promotion to GS-13.

SECTION E HARRATIVE DESCRIPTION OF MANNER OF JOB PERFORMANCE

Stress strengths and weaknesses demonstrated in Eutrent position. Indicate suggestions made to employee for improvement of his work. Give recommendations for his training. Describe, it appropriate, his potential for development and for assuming greater responsibilities. Amplify or explain, if appropriate, ratings given in SECTIONS B, C, and D-to provide the best basis for determining

This officer is an extremely willing and hard worker. From the technical standpoint his performance is satisfactory in every sense. He devotes long hours to keeping the equipment in perfect working order and is always willing and ready to accept any extra assignment given him regardless of his personal and family commitments. His principal weakness is his almost total inability to write clear, concise reports. Because he lacks aggressiveness and due to his limited knowledge of the Spanish language he has been unable to provide first rate case officer control over the LP under his command. This is at least partially due to the fact that the indigenous personnel resent to some extent being under the control of a PBPRIMER and prefer to take instructions from the indigenous case officer (LIENVOY/2), This is not because of the KUBARK Case Officer's personality but because of pride of nationality. As a matter of fact, this officer has a very pleasant personality and gets along well with his co-workers. With respect to this officer's potential and future development the rating officer recommends that at the conclusion of his present tour in June of 1962 that he be reassigned to Headquarters for extensive training. This training period should include basic english, reports writing and trade craft. If he is to continue as a technical case officer he should also have further technical training depending upon his future assignments.

MEMORANDUM FOR: Secretary, CS/CS Agent Panel

SUBJECT:

Recommendation for Promotion to Grade 08-13
CANCIOS E. FLICK

FLICK

1. After brief service in Tokyo he performed a variety of functions with different staffs and divisions, thus acquiring broad experience. Since June 1960 he has been on assignment in Mexico City.

- 2. In Mexico is in charge of a very large technical operation with several dozen employees. The productions of this operation is tremendous and the technical problems to be met are intricate. If manages the project and its many native staff experts smoothly. No problems seem to arise. Security has been maintained faultlessly. It is a bold, bluff, and hearty man without a worrisome fiber in his make-up. He is capable of many kinds of work and will try anything.
- 3. It is recommended that the promoted to grade CS-13.

J. C. KING/or Chief,

## MEMORANDUM FOR: Chief, FI

SUBJECT: Comments on attached agenda list dated 19 May 1960.

1. If the principal case officer and technician handling the LIENVOY operation in Maxico City. As you know, we are avaiting the response of the Chief, WH division to the Chief, FI 's recommendation, 17 May 1960, that we gradually withdraw from this operation. I would suggest that the proposed change of status for from SE to SA be postponed pending the decision re the future of the LIENVOY operation.

Heffman informed me 10 km 1000 that the Florida was a sign should be made and that the consequent of that material to blesson I suppose City. With that notification I supposed the action in ichalf of the light Brand science the only singularly extra to their issermment were from the FI staff.

The time the FI staff.
